

FI6R-CT-2003-508842

RISC-RAD

**DNA damage responses, genomic instability and radiation-
induced cancer: the problem of risk at low doses**

Integrated Project

Thematic Priority: RAD PROT-2003-3.2.1.1-1 Cellular and molecular biology
research on the effects of low and protracted doses.

List of publications

Period covered: 1 January 2004 – 31 October 2008

Project coordinator : Dr. L. Sabatier

Organisation : Commissariat à l'Energie Atomique (CEA), France

Scientific manager : Prof. Dr. L.H.F. Mullenders

Organisation : Leiden University Medical Center (LUMC), The
Netherlands

Project co-funded by the European Commission under the Euratom Research and Training Programme on Nuclear Energy within the Sixth Framework Programme (2002-2006)		
Dissemination Level		
PU	Public	X
RE	Restricted to a group specified by the partners on the RISC-RAD project	
CO	Confidential, only for partners of the RISC-RAD project	

RISC-RAD Partners

Participant Role	Participant Number	Participant's Name	Participant Short Name	Country
CO	1	Commissariat à l'Energie Atomique	CEA	France
CR	2	Leiden University Medical Center	LUMC	The Netherlands
CR	3	Health Protection Agency – Radiation Protection Division (ex National Radiological Protection Board – NRPB)	HPA-RPD	United Kingdom
CR	4	GSF-Forschungszentrum für Umwelt und Gesundheit	GSF	Germany
CR	5	Radiation and Nuclear Safety Authority	STUK	Finland
CR	6	Erasmus Medical Center	EMC	The Netherlands
CR	7	The University of Sussex	UoS	United Kingdom
CR	8	Medical Research Council	MRC-RGS	United Kingdom
CR	8bis	University of Oxford – Radiation	ROB	United Kingdom
CR	9	Stockholm Universitet	SU	Sweden
CR	10	Centre National de la Recherche Scientifique	CNRS	France
